PROXY STATEMENT

For the Annual Meeting of Stockholders
To Be Held on Thursday, May 9, 2019

QUESTIONS AND ANSWERS ABOUT THE PROXY MATERIALS AND ANNUAL MEETING

What is a proxy?

A proxy is your legal designation of another person to vote the stock you own. The person you designate is your “proxy,” and you give the proxy authority to vote your shares by submitting the enclosed proxy card or, if available, voting by telephone or over the Internet. We have designated our Chairman and Chief Executive Officer, Kishore Seendripu, Ph.D., and our Chief Financial Officer and Chief Corporate Strategy Officer, Steven Litchfield, to serve as proxies for the annual meeting.

Why am I receiving these materials?

We are providing these proxy materials in connection with the solicitation by our board of directors of proxies to be voted at our 2019 annual meeting of stockholders, which will take place on Thursday, May 9, 2019 at 8:30 a.m., Pacific time, at MaxLinear’s office, located at 50 Parker, Irvine, California 92618. As a stockholder, you are invited to attend the annual meeting and are requested to vote on the items of business described in this proxy statement.

Our proxy statement for our 2019 annual meeting and the accompanying proxy card and notice, and our 2018 annual report, are first being mailed to our stockholders on or about April 9, 2019.

What information is contained in this proxy statement?

The information in this proxy statement relates to the proposals to be voted on at the annual meeting, the voting process, the compensation of our directors and most highly paid executive officers, our corporate governance policies, information on our board of directors, and certain other required information.

How do I get electronic access to the proxy materials?

The notice of annual meeting, proxy statement, and 2018 annual report are available by visiting www.edocumentview.com/MXL.

What items of business will be voted on at the annual meeting?

The items of business scheduled to be voted on at the annual meeting are as follows:

- To elect two nominees for Class I director named in this proxy statement, each to hold office until our 2022 annual meeting of stockholders and until their respective successors are duly elected and qualified.
- To approve, on an advisory basis, the compensation of our named executive officers for the year ended December 31, 2018, as set forth in this proxy statement.
- To ratify the appointment by the audit committee of our board of directors of Grant Thornton LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2019.
- To transact any other business that properly comes before the annual meeting or any postponement or adjournment thereof.

How does the board of directors recommend that I vote?

Our board of directors recommends that you vote your shares:

- “FOR” the two nominees for Class I director named in this proxy statement, each to hold office until our 2022 annual meeting of stockholders and until their respective successors are duly elected and qualified.

- “FOR” the approval, on an advisory basis, of the compensation of our named executive officers for the year ended December 31, 2018, as set forth in this proxy statement.
- “FOR” the ratification of the appointment by the audit committee of our board of directors of Grant Thornton LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2019.

What shares can I vote?

Each share of our common stock issued and outstanding as of the close of business on March 25, 2019, the record date for the 2019 annual meeting of stockholders, is entitled to vote on all proposals being considered at the 2019 annual meeting.

You may vote all shares owned by you as of the record date, including (i) shares held directly in your name as the stockholder of record and (ii) shares held for you as the beneficial owner in street name through a broker, bank, or other nominee. On the record date, we had 70,500,328 shares of common stock issued and outstanding.

How many votes am I entitled to per share?

For all matters described in this proxy statement for which your vote is being solicited, each holder of shares of common stock is entitled to one vote for each share of common stock held by such holder as of the record date.

What is the difference between holding shares as a stockholder of record and as a beneficial owner?

Many MaxLinear stockholders hold their shares as a beneficial owner through a broker, bank or other nominee rather than directly in their own name. As summarized below, there are some distinctions between shares held of record and those owned beneficially.

Stockholder of Record

If your shares are registered directly in your name with our transfer agent, Computershare Trust Company, N.A., you are considered, with respect to those shares, the *stockholder of record*, and these proxy materials were sent directly to you by MaxLinear. As the *stockholder of record*, you have the right to grant your voting proxy directly to our designated proxies or to vote in person at the annual meeting. We have enclosed or sent a proxy card for you to use with the printed proxy materials delivered to you. You may also vote on the Internet or by telephone, as described below under the heading “How can I vote my shares without attending the annual meeting?” and on your proxy card.

Beneficial Owner

If your shares are held in an account at a broker, bank, or other nominee, you are considered the beneficial owner of shares held in street name, and the notice of annual meeting, proxy statement, and 2018 annual report were forwarded to you by that organization. As the beneficial owner, you have the right to direct your broker, bank, or other nominee how to vote your shares, and you are also invited to attend the annual meeting.

Since a beneficial owner is not the *stockholder of record*, you may not vote your shares in person at the annual meeting unless you obtain a “legal proxy” from the broker, bank, trustee, or nominee that holds your shares giving you the right to vote the shares at the meeting. If you are a beneficial owner and do not wish to vote in person or you will not be attending the annual meeting, you may vote by following the instructions provided by your broker, bank, or other nominee.

How can I contact MaxLinear’s transfer agent?

You may contact our transfer agent by writing Computershare Investor Services, P.O. Box 505000, Louisville, KY 40233-5000 by telephoning (800) 662-7232 or (781) 575-4238, or via its Investor Center at www.computershare.com/investor.

How can I attend the annual meeting?

You are entitled to attend the annual meeting only if you were a MaxLinear stockholder as of the record date or you hold a valid proxy for the annual meeting. If you are not a stockholder of record but hold shares as a beneficial owner in street name, you should provide proof of beneficial ownership as of the record date, a copy of the voting instruction card provided by your broker, bank, or nominee, or other similar evidence of ownership.

If you do not comply with the procedures outlined above, you may not be admitted to the annual meeting.

Please let us know if you plan to attend the meeting by marking the appropriate box on the enclosed proxy card or, if you vote by telephone or Internet, by indicating your plans when prompted.

Will the annual meeting be webcast?

We will not webcast the annual meeting.

How can I vote my shares in person at the annual meeting?

Shares held in your name as the stockholder of record may be voted by you in person at the annual meeting. Shares held beneficially in street name may be voted by you in person at the annual meeting only if you obtain a legal proxy from the broker, bank, or nominee that holds your shares giving you the right to vote the shares. Even if you plan to attend the annual meeting, we recommend that you also submit your proxy or voting instructions as described below so that your vote will be counted if you later decide not to attend the meeting.

How can I vote my shares without attending the annual meeting?

By mail

Complete, sign and date the enclosed proxy card and return it in the return envelope provided (which is postage prepaid if mailed in the United States).

If you are a stockholder of record and you return your signed proxy card and do not indicate your voting preferences, the shares represented by your proxy card will be voted as recommended by our board of directors.

If you are a stockholder of record and the prepaid envelope is missing, please mail your completed proxy card to MaxLinear, Inc., c/o Computershare Trust Company, N.A., P.O. Box 505000, Louisville, KY 40233-5000.

If you are a beneficial owner of shares, you should have received a proxy card and voting instructions with these proxy materials from your broker, bank, or other nominee holder of record. Simply complete and mail the voting instruction card provided to the address provided by your broker, bank, or other nominee holder of record.

You may still attend the annual meeting in person even if you have already voted by proxy.

By telephone or on the Internet

If you are a stockholder of record, you may vote by following the telephone or Internet voting instructions on your proxy card.

If you are a beneficial owner of shares, your broker, bank, or other holder of record may make telephone or Internet voting available to you. The availability of telephone and Internet voting for beneficial owners will depend on the voting processes of your broker, bank, or other nominee holder of record. Therefore, we recommend that you follow the voting instructions in the materials you receive.

Can I change my vote or revoke my proxy?

You may change your vote at any time prior to the taking of the vote at the annual meeting. If you are the stockholder of record, you may change your vote by (i) granting a new proxy bearing a later date (which automatically revokes the earlier proxy) using any of the methods described above (and until the applicable deadline for each method), (ii) providing a written notice of revocation to our corporate secretary at MaxLinear, Inc., 5966 La Place Court, Suite 100, Carlsbad, California 92008 prior to your shares being voted, or (iii) attending the annual meeting and voting in person. Attendance at the meeting will not cause your previously granted proxy to be revoked unless you specifically so request. For shares you hold beneficially in street name, you may change your vote by submitting new voting instructions to your broker, bank, or nominee following the instructions they provided or, if you have obtained a legal proxy from your broker, bank, or nominee giving you the right to vote your shares, by attending the annual meeting and voting in person.

Is there a list of stockholders entitled to vote at the annual meeting?

The names of stockholders of record entitled to vote at the annual meeting will be available at the annual meeting and for ten days prior to the meeting for any purpose germane to the meeting, between the hours of 9:00 a.m. and 4:30 p.m., at our corporate headquarters at 5966 La Place Court, Suite 100, Carlsbad, California 92008, by contacting our corporate secretary.

Is my vote confidential?

Proxy instructions, ballots, and voting tabulations that identify individual stockholders are handled in a manner that protects your voting privacy. Your vote will not be disclosed either within MaxLinear or to third parties, except as necessary to meet applicable legal requirements, to allow for the tabulation of votes and certification of the vote, or to facilitate a successful proxy solicitation.

How many shares must be present or represented to conduct business at the annual meeting?

Holders of a majority of the issued and outstanding shares of common stock as of the record date must be present in person or represented by proxy, also referred to as a quorum, to hold and transact business at the annual meeting. Abstentions and “broker non-votes” are counted as present and entitled to vote for purposes of determining a quorum. A “broker non-vote” occurs when a broker, bank, or other holder of record holding shares for a beneficial owner does not vote on a particular proposal because that holder does not have discretionary voting power for that particular item and has not received voting instructions from the beneficial owner. If there is no quorum, the chairman of the annual meeting may adjourn the meeting to another date.

What is the voting requirement to approve each of the proposals?

Proposal	Vote Required	Discretionary Voting Allowed?
Election of two nominees for Class I director named in this proxy statement, each to hold office until 2022 annual meeting of stockholders and until their respective successors are duly elected and qualified.	Votes cast for such nominee’s election exceed the votes cast against such nominee’s election	No
To approve, on an advisory basis, the compensation of our named executive officers for the year ended December 31, 2018.	Majority of the votes cast	No
Ratification of the appointment by the audit committee of our board of directors of Grant Thornton LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2019.	Majority of the votes cast	Yes

If you are a beneficial owner, your broker, bank or other nominee holder of record is permitted to vote your shares on the ratification of the appointment of Grant Thornton LLP as our independent registered public accounting firm, even if the record holder does not receive voting instructions from you. Your broker, bank, or other nominee holder of record does not have discretionary authority to vote on the election of directors, or on the proposal seeking advisory votes to approve executive compensation, without instructions from you, in which case a broker non-vote will occur and your shares will not be voted on these matters. Accordingly, if you are a beneficial owner, it is particularly important that you provide your instructions for voting your shares to your broker, bank, or other nominee holder of record.

Election of two nominees for Class I director named in this proxy statement, each to hold office until our 2022 annual meeting of stockholders and until their respective successors are duly elected and qualified.

Directors are elected when the votes cast for such nominee’s election exceed the votes cast against such nominee’s election. For a description of our majority voting standard, please refer to the sections captioned “Corporate Governance and Board of Directors” and Proposal Number One—Election of Two Class I Directors. You may vote “FOR,” “AGAINST” or “ABSTAIN” on this proposal. Abstentions and broker non-votes are not deemed to be votes cast and, therefore, are not included in the tabulation of the voting results on this proposal and will not affect the outcome of the vote.

Advisory vote to approve on an advisory basis, the compensation of our named executive officers for the year ended December 31, 2018.

The affirmative “FOR” vote of a majority of the votes cast on this proposal is required to approve, on an advisory basis, the compensation awarded to our named executive officers for the year ended December 31, 2018. You may vote “FOR,” “AGAINST,” or “ABSTAIN” on this proposal. Abstentions and broker non-votes are not deemed to be votes cast, are not included in the tabulation of voting results on this proposal, and will not affect the outcome of voting on this proposal.

Ratification of the appointment by the audit committee of our board of directors of Grant Thornton LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2019.

The affirmative “FOR” vote of a majority of the votes cast on this proposal is required to ratify the appointment by the audit committee of our board of directors of Grant Thornton LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2019. You may vote “FOR,” “AGAINST,” or “ABSTAIN” on this proposal. Abstentions and broker non-votes are not deemed to be votes cast, are not included in the tabulation of voting results on this proposal, and will not affect the outcome of voting on this proposal.

Is cumulative voting permitted for the election of directors?

No. You may not cumulate your votes for the election of directors.

What happens if additional matters are presented at the annual meeting?

Other than the items of business described in this proxy statement, we are not aware of any other business to be acted upon at the annual meeting. If you grant a proxy, the persons named as proxy holders, Kishore Seendripu, Ph.D. and Steven Litchfield, or either of them, will have the discretion to vote your shares on any additional matters properly presented for a vote at the meeting. If for any reason any of the nominees is not available as a candidate for director, the persons named as proxy holders will vote your proxy for such other candidate or candidates as may be nominated by the board of directors.

Who will count the votes?

A representative of our transfer agent, Computershare Trust Company, N.A., will tabulate the votes and act as inspector of election.

Who will bear the cost of soliciting votes for the annual meeting?

We will pay the entire cost of preparing, assembling, printing, mailing, and distributing these proxy materials and soliciting votes. In addition to the mailing of these proxy materials, the solicitation of proxies or votes may be made in person, by telephone, or by electronic communication by our directors, officers, and employees, who will not receive any additional compensation for such solicitation activities. We may also reimburse brokerage firms, banks, and other nominee holders of record for the cost of forwarding proxy materials to beneficial owners.

Where can I find the voting results of the annual meeting?

We will announce preliminary voting results at the annual meeting. We will also disclose voting results on a Current Report on Form 8-K filed with the Securities and Exchange Commission, or SEC, within four business days after the annual meeting. If final voting results are not available to us in time to file a Current Report on Form 8-K, we will file a Current Report on Form 8-K to publish preliminary results and, within four business days after final results are known, file an additional Current Report on Form 8-K to publish the final results.

What is “householding” and how does it affect me?

We have adopted a procedure approved by the SEC called “householding.” Under this procedure, stockholders of record who have the same address and last name and who do not participate in electronic delivery of proxy materials will receive only one copy of our notice of annual meeting, proxy statement, and 2018 annual report, unless one or more of these stockholders notifies us that they wish to continue receiving individual copies. This procedure will reduce our printing costs and postage fees.

Stockholders who wish to participate in householding will continue to receive separate proxy cards.

If you are eligible for householding, and you and other stockholders of record with whom you share an address currently receive multiple copies of the notice of annual meeting, proxy statement, 2018 annual report, and accompanying documents, or if you hold stock in more than one account, and, in either case, you wish to receive only a single copy of each of these documents for your household, please contact our transfer agent, Computershare Investor Services, P.O. Box 505000, Louisville, KY 40233, by telephoning (800) 662-7232 or (781) 575-4238, or via its Investor Center at www.computershare.com/investor.

Upon written or oral request, we will deliver promptly a separate copy of the notice and, if applicable, our proxy materials to any stockholder at a shared address to which we delivered a single copy of any of these materials. If you participate in householding and wish to receive a separate copy of this notice of annual meeting, proxy statement, 2018 annual report, and the accompanying documents, or if you do not wish to continue to participate in householding and prefer to receive separate copies of these documents in the future, please contact Computershare Investor Services as indicated above.

Beneficial owners can request information about householding from their banks, brokers, or other nominee holders of record.

What is the deadline to propose actions for consideration at next year's annual meeting of stockholders or to nominate individuals to serve as directors?

Stockholder Proposals

Stockholders may present proper proposals for inclusion in our proxy statement and for consideration at the next annual meeting of stockholders by submitting their proposals in writing to our corporate secretary in a timely manner. For a stockholder proposal to be considered for inclusion in our proxy statement for our 2020 annual meeting of stockholders, our corporate secretary must receive the written proposal at our principal executive office no later than December 11, 2019. In addition, stockholder proposals must otherwise comply with the requirements of Rule 14a-8 of the Securities Exchange Act of 1934, as amended, or the Exchange Act, including requirements regarding the inclusion of stockholder proposals in company-sponsored proxy materials. Proposals should be addressed to:

MaxLinear, Inc.
Attn: Corporate Secretary
5966 La Place Court, Suite 100
Carlsbad, California 92008
Fax: (760) 444-8598

Our bylaws also establish an advance notice procedure for stockholders who wish to present a proposal before an annual meeting of stockholders but do not intend for the proposal to be included in our proxy statement. Our bylaws provide that the only business that may be conducted at an annual meeting is business that is (i) specified in the notice of a meeting given by or at the direction of our board of directors, (ii) otherwise properly brought before the meeting by or at the direction of our board of directors, or (iii) properly brought before the meeting by a stockholder of record entitled to vote at the annual meeting who has delivered timely written notice to our corporate secretary, which notice must contain the information specified in our bylaws. To be timely for our 2020 annual meeting of stockholders, our corporate secretary must receive the written notice at our principal executive offices:

- not earlier than January 25, 2020;
and
- not later than the close of business on February 24, 2020.

In the event that we hold our 2020 annual meeting of stockholders more than 30 days before or after the one-year anniversary date of the 2019 annual meeting, then notice of a stockholder proposal that is not intended to be included in our proxy statement must be received not later than the close of business on the later of the following two dates:

- the 90th day before such annual meeting;
or
- the 10th day following the day on which public announcement of the date of such meeting is first made.

If a stockholder who has notified us of his or her intention to present a proposal at an annual meeting does not appear to present his or her proposal at such meeting, we are not required to present the proposal for a vote at such meeting.

Nomination of Director Candidates

You may propose director candidates for consideration by our Nominating and Governance Committee. Any such recommendations should include the nominee's name and qualifications for membership on our board of directors and should be directed to the corporate secretary of MaxLinear at the address set forth above. For additional information regarding stockholder recommendations for director candidates, see "Corporate Governance and Board of Directors—Process for Recommending Candidates to the Board of Directors."

In addition, our bylaws permit stockholders to nominate directors for election at an annual meeting of stockholders. To nominate a director, the stockholder must provide the information required by our bylaws. In addition, the stockholder must give timely notice to our corporate secretary in accordance with our bylaws, which, in general, require that the notice be received by our corporate secretary within the time period described above under "Stockholder Proposals" for stockholder proposals that are not intended to be included in our proxy statement.

Availability of Bylaws

A copy of our bylaws may be obtained by accessing MaxLinear's filings on the SEC's website at www.sec.gov. You may also contact our corporate secretary at our principal executive offices for a copy of the relevant bylaw provisions regarding the requirements for making stockholder proposals and nominating director candidates.

CORPORATE GOVERNANCE AND BOARD OF DIRECTORS

MaxLinear Policies on Business Conduct

We are committed to the highest standards of integrity and ethics in the way we conduct our business. We maintain a code of ethics and employee conduct that applies to our board of directors and all of our employees, including our chief executive officer, principal financial officer, and principal accounting officer. Our code of conduct establishes our policies and expectations with respect to a wide range of business conduct, including preparation and maintenance of financial and accounting information, compliance with laws, and conflicts of interest.

Under our code of conduct, each of our directors and employees is required, subject to applicable legal requirements in certain jurisdictions, to report suspected or actual violations. In addition, we have adopted separate procedures concerning the receipt and investigation of complaints relating to accounting or audit matters. These procedures have been adopted and are administered by our audit committee.

Our code of conduct is available at our website by visiting www.maxlinear.com and clicking through “Investors,” “Corporate Governance,” “Governance Documents,” and “Code of Conduct.” When required by the rules of the New York Stock Exchange (NYSE) or the Securities and Exchange Commission (SEC), we will disclose any future amendment to, or waiver of, any provision of the code of conduct for our chief executive officer, principal financial officer, or principal accounting officer or any member or members of our board of directors on our website within four business days following the date of such amendment or waiver.

Corporate Governance Principles

Our board of directors has adopted a set of principles that establish the corporate governance policies pursuant to which our board of directors intends to conduct its oversight of MaxLinear. Among other things, these corporate governance principles address the establishment and operation of board committees, the role of our Lead Director, and matters relating to director independence and performance assessments.

Our corporate governance principles are available at our website by visiting www.maxlinear.com and clicking through “Investors,” “Corporate Governance,” “Governance Documents,” and “Corporate Governance Guidelines.”

Role and Composition of the Board; Election of Directors

As identified in our corporate governance principles, the role of our board of directors is to oversee the performance of our chief executive officer and other senior management. Our board of directors is responsible for hiring, overseeing, and evaluating management while management is responsible for running our day-to-day operations.

As of the date of this proxy statement, our board of directors is composed of eight members and is divided into three staggered classes of directors. In connection with the annual meeting, director Steven Craddock will retire from the board of directors and is not standing for re-election at the annual meeting. The board of directors would like to thank Mr. Craddock for his dedicated service to MaxLinear. In connection with the retirement of Mr. Craddock as a director, our board of directors has fixed the authorized number of directors at seven to be effective as of the annual meeting with the elimination of a Class I directorship.

At each annual meeting of stockholders, a class of directors will be elected for a three-year term to succeed the class whose terms are then expiring. The terms of the directors will expire upon the election and qualification of successor directors at the annual meeting of stockholders to be held this year for the Class I directors, in 2020 for the Class II directors, and in 2021 for the Class III directors.

In February 2017, our board of directors approved an amendment and restatement of our bylaws to implement a majority voting standard in the election of directors, except in the event of a contested election in which case we will revert to a plurality voting standard, the default standard under Delaware law. Our board of directors implemented this amendment on the recommendation of its Nominating and Governance Committee and in conjunction with the board and committee’s consideration of our corporate governance structures generally following the expiration of our dual class stock structure, which occurred on March 29, 2017.

2018 Board Meetings

During fiscal 2018, our board of directors held 15 meetings. Each of our directors attended or participated in 75% or more of the meetings of the board of directors and 75% or more of the meetings held by all committees of the board of directors on which he or she served during the past fiscal year, in each case during the period that he or she served as a director.

Board Leadership Structure

As described below, our board of directors is led by directors Kishore Seendripu, Ph.D. and Thomas E. Pardun. Dr. Seendripu founded MaxLinear and has served as our Chairman, President, and Chief Executive Officer since inception. In addition, Mr. Pardun, an independent director with substantial board and executive leadership experience, currently serves as our Lead Director.

Lead Director

Our corporate governance principles require that we designate one independent, non-employee director to serve as Lead Director. Mr. Pardun has served as our Lead Director since November 2009. The board chose Mr. Pardun as our Lead Director because of his substantial executive experience in the technology and telecommunications industries and his extensive board leadership experience. In addition to MaxLinear, Mr. Pardun has served and continues to serve on the board of directors of other public technology companies. In particular, Mr. Pardun served for many years as the non-executive chairman of Western Digital Corporation, a multinational provider of computer data storage and hard disk drives. As Lead Director, Mr. Pardun's responsibilities include:

- coordinating and moderating executive sessions of our independent directors;
- advising Dr. Seendripu as to the quality, quantity, and timeliness of the flow of information from management that is necessary for the independent directors to effectively and responsibly perform their duties;
- confirming the agenda with Dr. Seendripu for meetings of our board of directors;
- holding regular update sessions with Dr. Seendripu;
- acting as the principal liaison between the independent directors and Dr. Seendripu on sensitive issues; and
- performing such other duties as our board of directors may from time to time delegate to the Lead Director to assist our board of directors in the fulfillment of its responsibilities.

Our board believes that these responsibilities of the Lead Director appropriately and effectively complement MaxLinear's combined chairman and chief executive officer structure as described below.

Chairman of the Board

Our current bylaws provide that the chairman of the board of directors will be our chief executive officer. Our corporate governance principles provide that the board will fill the chairman and chief executive officer positions based upon the board's view of what is in our best interests at any point in time. Our board of directors believes that Dr. Seendripu's service as both chairman and chief executive officer, in combination with Mr. Pardun's service as Lead Director, is in the best interests of MaxLinear and its stockholders.

Given his long tenure with and status within MaxLinear, our board of directors believes Dr. Seendripu possesses detailed and in-depth knowledge of the issues, opportunities, and challenges facing MaxLinear, and we believe he is best positioned, in consultation with Mr. Pardun, to develop agendas that ensure that the board's time and attention are focused on the most critical matters. We also believe his combined role enables decisive leadership, ensures clear accountability, and enhances MaxLinear's ability to communicate its message and strategy clearly and consistently to its stockholders, employees, and customers.

In addition, we believe the working relationship between Dr. Seendripu and Mr. Pardun, on the one hand, and between Mr. Pardun and the other independent directors, on the other, enhances and facilitates the flow of information between management and our board as well as the ability of our independent directors to evaluate and oversee management and its decision-making. Dr. Seendripu and Mr. Pardun speak regularly on strategic, operational, and management matters facing MaxLinear. In addition, as discussed below, our board of directors holds executive sessions consisting only of non-employee directors in conjunction with each regular quarterly meeting of the board, and Mr. Pardun and Dr. Seendripu discuss board feedback to management following these executive sessions.

Director Independence

As a company listed on the New York Stock Exchange, or NYSE, we are required under NYSE listing requirements to maintain a board comprised of a majority of “independent” directors, as determined affirmatively by our board. In April 2019, our board of directors undertook a review of the independence of our directors and considered whether any director has a material relationship with us that could compromise his or her ability to exercise independent judgment in carrying out his or her responsibilities.

In connection with its review of Dr. Theodore Tewksbury’s independence, our board of directors considered his prior status as the interim chief executive officer of Entropic Communications, Inc., or Entropic, which was acquired by MaxLinear during the second quarter of fiscal 2015. In particular, the board noted that Dr. Tewksbury was appointed to serve as Entropic’s interim chief executive officer following the announcement of the resignation of its prior chief executive officer and contemporaneously with Entropic’s announcement that it had engaged an outside financial advisor and was conducting a strategic review process, which culminated in Entropic’s sale to MaxLinear. Dr. Tewksbury served as Entropic’s interim chief executive officer from November 2014 through April 2015. Given the circumstances of Dr. Tewksbury’s appointment and his short tenure as Entropic’s interim chief executive officer, our board determined that his prior service should not impair his ability to exercise independent judgment in carrying out his responsibilities as a member of our board of directors.

As a result of its review, our board of directors determined that directors Steven C. Craddock, Albert J. Moyer, Thomas E. Pardun, Donald E. Schrock, Theodore Tewksbury, Ph.D., Carolyn Beaver, and Daniel Artusi, representing a majority of our directors, are “independent directors” as defined under the rules of the NYSE. Kishore Seendripu, Ph.D. is not considered an independent director because of his employment as our chief executive officer.

Executive Sessions of Independent Directors

In order to promote open discussion among independent directors, our board of directors has a policy of conducting executive sessions of independent directors during each regularly scheduled board meeting and as appropriate or requested by the independent directors during telephonic meetings. These executive sessions are chaired by our Lead Director. Dr. Seendripu, as the only current management director, does not participate in sessions of non-management directors.

Board’s Role in Risk Oversight

Our board of directors oversees an enterprise-wide approach to risk management, designed to support the achievement of organizational objectives, including strategic objectives, to improve long-term organizational performance, and to enhance stockholder value. A fundamental part of risk management is not only understanding the most significant risks a company faces and what steps management is taking to manage those risks but also understanding what level of risk is appropriate for a given company. The involvement of our full board of directors in reviewing our business is an integral aspect of its assessment of management’s tolerance for risk and also its determination of what constitutes an appropriate level of risk.

While our board of directors has the ultimate oversight responsibility for the risk management process, various committees of the board also have responsibility for risk management. The charter of our audit committee provides that one of the committee’s responsibilities is oversight of certain compliance matters. In addition, in setting compensation, our compensation committee strives to create incentives that encourage a level of risk taking consistent with our business. In connection with its oversight of compensation-related risks, our compensation committee has reviewed our compensation programs and practices for employees, including executive and non-executive programs and practices. In its review, our compensation committee evaluated whether our policies and programs encourage unnecessary or excessive risk taking and controls, and how such policies and programs are structured with respect to risks and rewards, as well as controls designed to mitigate any risks. As a result of this review, our compensation committee determined that any risks that may result from our compensation policies and practices for its employees are not reasonably likely to have a material adverse effect on MaxLinear.

At periodic meetings of the board and its committees and in other meetings and discussions, management reports to and seeks guidance from the board and its committees with respect to the most significant risks that could affect our business, such as legal risks, information technology and security risks, and financial, tax, and audit related risks. In addition, among other matters, management provides our audit committee periodic reports on our compliance programs and efforts and investment policy and practices.

Board Committees

Our board of directors has three standing chartered committees: an audit committee, a compensation committee, and a nominating and governance committee. In addition, to enhance our board of directors' oversight over strategic and corporate development initiatives, our board has also established an unchartered strategy development committee as described below.

Audit Committee. Our audit committee currently consists of directors Albert J. Moyer, Thomas E. Pardun, Steven C. Craddock, Theodore Tewksbury, Ph.D., and Carolyn Beaver. Upon her appointment to our board of directors in December 2018, Ms. Beaver joined our audit committee. Mr. Craddock will be leaving our board in conjunction with the 2019 annual meeting and, therefore, will no longer serve on our audit committee following the annual meeting. Mr. Moyer is the chairman of the audit committee. Our board of directors has determined that each of the members of our audit committee is independent and financially literate under the current rules and regulations of the SEC and the NYSE and that Mr. Moyer qualifies as an "audit committee financial expert" within the meaning of the rules and regulations of the SEC.

Our audit committee oversees our corporate accounting and financial reporting process and assists our board of directors in monitoring our financial systems and our legal and regulatory compliance. Our audit committee also:

- oversees the work of our independent registered public accounting firm;
- approves the hiring, discharge, and compensation of our independent registered public accounting firm;
- approves engagements of the independent registered public accounting firm to render any audit or permissible non-audit services;
- reviews the qualifications, independence, and performance of the independent registered public accounting firm;
- reviews our financial statements and our critical accounting policies and estimates;
- reviews management's assessment of our internal controls; and
- reviews and discusses with management and the independent auditors the results of our annual audit, our quarterly financial statements, and our publicly filed reports.

Our audit committee held 5 meetings during fiscal 2018. Our audit committee operates under a written charter approved by our board of directors. The charter is available on our website by visiting www.maxlinear.com and clicking through "Investors," "Corporate Governance," "Governance Documents," and "Audit Committee Charter."

Compensation Committee. Our compensation committee is currently comprised of Thomas E. Pardun, Steven C. Craddock, Donald E. Schrock, and Daniel Artusi, each of whom qualifies as an independent director under the applicable rules and regulations of the SEC and the NYSE. Upon his appointment to our board of directors in November 2018, Mr. Artusi joined our compensation committee. Mr. Craddock will be leaving our board in conjunction with the 2019 annual meeting and, therefore, will no longer serve on our compensation committee following the annual meeting. Mr. Pardun is the chairman of our compensation committee. Our compensation committee oversees our corporate compensation programs. The compensation committee also:

- reviews and recommends policies relating to compensation and benefits of our executive officers and employees;
- reviews and approves corporate goals and objectives relevant to compensation of our chief executive officer and other executive officers;
- evaluates the performance of our executive officers in light of established goals and objectives;
- recommends compensation of our executive officers based on its evaluations; and
- administers the issuance of stock options, restricted stock units, and other awards under our equity incentive plans.

See "Compensation of Non-Employee Directors" and "Executive Compensation" for a description of our processes and procedures for the consideration and determination of executive and director compensation.

Our compensation committee held 7 meetings during fiscal 2018. Our compensation committee operates under a written charter approved by the board of directors, which is available on our website by visiting www.maxlinear.com and clicking through "Investors," "Corporate Governance," "Governance Documents," and "Compensation Committee Charter."

Nominating and Governance Committee. Our nominating and governance committee is comprised of Donald E. Schrock, Albert J. Moyer, and Theodore Tewksbury, Ph.D., each of whom qualifies as an independent director under the applicable rules and regulations of the SEC and the NYSE. Mr. Schrock is the chairman of the nominating and governance committee. Our nominating and governance committee oversees and assists our board of directors in reviewing and recommending nominees for election as directors. The nominating and governance committee also:

- evaluates and makes recommendations regarding the organization and governance of the board of directors and its committees;
- assesses the performance of members of the board of directors and makes recommendations regarding committee and chair assignments;
- recommends desired qualifications for board of directors membership and conducts searches for potential members of the board of directors; and
- reviews and makes recommendations with regard to our corporate governance guidelines.

Our nominating and governance committee will consider recommendations of candidates for the board of directors submitted by stockholders of MaxLinear; see “*Process for Recommending Candidates for Election to the Board of Directors*” below.

Our nominating and governance committee held 4 meetings during fiscal 2018. Our nominating and governance committee operates under a written charter approved by the board of directors, which is available on our website by visiting www.maxlinear.com and clicking through “Investors,” “Corporate Governance,” “Governance Documents,” and “Nominating and Governance Committee Charter.”

Strategy Development Committee. Our board of directors has appointed Mr. Craddock and Dr. Tewksbury to serve as the members of a Strategy Development Committee, which does not operate under a written charter. Mr. Craddock will be leaving our board in conjunction with the 2019 annual meeting and, therefore, will no longer serve on our Strategy Development Committee following the annual meeting. The purpose of the Strategy Development Committee is to ensure board oversight and engagement with respect to product development, acquisitions, and other strategic and corporate development initiatives, particularly in light of MaxLinear’s efforts to expand its addressable markets. In this role, members of the committee periodically meet with and provide feedback to key members of management and reports to the full board of directors on its findings during executive sessions held in conjunction with regularly scheduled meetings. The board chose Mr. Craddock to serve in this strategy liaison capacity based on his substantial operational experience in the broadband service provider industry, a principal target market for MaxLinear, and added Dr. Tewksbury to committee based on his substantial management, operating, and strategic development experience within the semiconductor industry.

Compensation Committee Interlocks and Insider Participation

The members of our compensation committee are Steven C. Craddock, Thomas E. Pardun, Donald E. Schrock, and Daniel Artusi. Upon his appointment to our board of directors in November 2018, Mr. Artusi joined our compensation committee. Mr. Pardun is the chairman of our compensation committee. None of the members of our compensation committee is or has been an officer or employee of our company. None of our executive officers currently serves, or in the past year has served, as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving on our board of directors or compensation committee.

Considerations in Identifying and Evaluating Director Nominees

Our nominating and governance committee has established policies and procedures relating to the consideration of any individual recommended or otherwise introduced, whether by management, another director, stockholders, or third parties, as a prospective director nominee. The committee will consider candidates recommended by stockholders in the same manner as candidates recommended to the committee from other sources.

In its evaluation of director candidates, including the members of the board of directors eligible for re-election, our nominating and governance committee will consider the following:

- the current size and composition of our board of directors and the needs of the board and its respective committees;
- factors such as character, integrity, judgment, diversity of background (including gender diversity) and experience, independence, area of expertise, corporate experience, length of service, potential conflicts of interest,

other commitments and the like. Our committee evaluates these factors, among others, and does not assign any particular weight or priority to any of these factors; and

- other factors that our committee may consider appropriate.

Our nominating and governance committee requires the following minimum qualifications to be satisfied by any nominee for a position on the board:

- the highest personal and professional ethics and integrity;
- proven achievement and competence in the nominee’s field and the ability to exercise sound business judgment;
- skills that are complementary to those of the existing board;
- the ability to assist and support management and make significant contributions to MaxLinear’s success; and
- an understanding of the fiduciary responsibilities that are required of a member of the board and the commitment of time and energy necessary to diligently carry out those responsibilities.

If our nominating and governance committee determines that an additional or replacement director is required, the committee may take such measures as it considers appropriate in connection with its evaluation of a director candidate, including candidate interviews, inquiry of the person or persons making the recommendation or nomination, engagement of an outside search firm to gather additional information, or reliance on the knowledge of the members of the committee, board, or management.

In April 2017, our board of directors, on the recommendation of our Nominating and Governance Committee, approved an amendment to our director nominating policies to include a specific reference to factors relating to diversity when considering potential director candidates. Our board of directors intends to consider these factors, including in particular gender diversity, in connection with its deliberations over board expansion and potential candidates.

Process for Recommending Candidates for Election to the Board of Directors

Our nominating and governance committee is responsible for, among other things, determining the criteria for membership to our board of directors and recommending candidates for election to the board of directors. It is the policy of the nominating and governance committee to consider recommendations for candidates to the board of directors from stockholders holding at least 100,000 shares of our common stock continuously for at least twelve months prior to the date of submission of the recommendation. Stockholder recommendations for candidates to the board of directors must be directed in writing to MaxLinear, Inc., 5966 La Place Court, Suite 100, Carlsbad, California, 92008, Attention: Chief Executive Officer and Chief Financial Officer, and must include the candidate’s name, home and business contact information, detailed biographical data, relevant qualifications, a signed letter from the candidate confirming willingness to serve, information regarding any relationships between the candidate and MaxLinear, and evidence of the nominating person’s ownership of our stock. Such recommendations must also include a statement from the recommending stockholder in support of the candidate, particularly within the context of the criteria for board membership, including issues of character, judgment, diversity of professional experience, independence, area expertise, corporate experience, length of service, other commitments and the like, and personal references. For details regarding the process to nominate a director, under the section entitled “Questions and Answers About the Proxy Materials and Annual Meeting,” please see “*What is the deadline to propose actions for consideration at next year’s annual meeting of stockholders or to nominate individuals to serve as directors?—Nomination of Director Candidates.*”

Director Attendance at Annual Meetings

We do not have a formal policy regarding attendance by members of our board of directors at annual meetings of stockholders. We encourage, but do not require, directors to attend. All six of our then-current directors attended our 2018 annual meeting. We have scheduled our 2019 annual meeting on the same day as a regularly scheduled board meeting in order to facilitate attendance.

Communications with the Board of Directors

Stockholders and other interested parties who wish to communicate with our board of directors, lead director, committee chairmen, any other individual director, or the non-management or independent directors as a group, are welcome to do so in writing, addressed to such person(s) in care of our Chief Executive Officer and Chief Financial Officer, c/o MaxLinear, Inc., 5966 La Place Court, Suite 100, Carlsbad, CA 92008, or by fax to (760) 444-8598. Our Chief Executive Officer and Chief Financial Officer will monitor these communications and will provide a summary of all received messages to our board of

directors at each regularly scheduled meeting of our board. Our board of directors generally meets on a quarterly basis. Where the nature of the communication warrants, our Chief Executive Officer and Chief Financial Officer may determine, in his or her judgment, to obtain the more immediate attention of the appropriate committee or non-management director, of our independent advisors, or of our management.

Director and Executive Stock Ownership Policies

In June 2016, our compensation committee recommended and our board of directors approved stock ownership guidelines for our non-employee directors. Under these guidelines, each of our non-employee directors is expected to hold shares of our common stock (and to maintain such holdings as long as they serve as a director) with a value equal to at least eight (8) times the annual cash retainer for service as a director. Based on the base retainer of \$50,000 established in June 2016, each non-employee director is expected to hold shares of our common stock with a value equal to \$400,000 on or before their fifth anniversary of joining the Board.

As of the record date, each of our non-employee directors, other than two directors who joined our board of directors in 2018 and therefore have not yet been members of board of directors for five years, maintained beneficial ownership of shares of our common stock with a value in excess of the requirement (see the section of this proxy statement captioned "Security Ownership").

In November 2016, our nominating and governance committee recommended, and our board of directors approved, stock ownership guidelines for our executive officers. Under these guidelines, our chief executive officer is expected to hold shares of our common stock (and to maintain such holdings for as long as he serves in that position) with a value equal to at least five (5) times his annual base salary. Our chief financial officer is expected to hold and maintain shares with a value equal to at least three (3) times his base salary, and our other officers subject to Section 16 of the Securities Exchange Act of 1934, as amended, are expected to hold and maintain shares with a value equal to at least one (1) times his or her base salary before their fifth anniversary of joining the Company. As of the record date, each of our chief executive officer, chief financial officer, and other officers subject to the policy maintained beneficial ownership of shares of our common stock with a value in excess of the requirement (see the section of this proxy statement captioned "Security Ownership").

For purposes of determining whether the guidelines are satisfied under these policies, directors and executive officers may include shares owned directly (including shares held by immediate family members); shares held in trust, limited partnerships, or similar entities for the benefit of the non-employee director or his or her immediate family members; shares subject to full-value equity incentive awards (*e.g.*, restricted stock units) for which the only requirement to earn the award is continued service; and shares subject to vested in-the-money stock options and stock appreciation rights. Our compensation committee maintains authority to waive the requirements of these guidelines for directors joining our board from government, academia, or similar professions. In addition, our compensation committee or board (in the case of executive officers) may suspend the guidelines in the case of severe hardship or in order to permit compliance with a court order affecting a director or executive officer. In the event a director or executive officer fails to comply with the guidelines on or before the applicable deadline, the director or executive officer will be required to retain an amount equal to 75% of the net shares (after taxes and satisfaction of any purchase price) received as the result of exercising stock options or stock appreciation rights or the vesting of full value awards.

Policy Prohibiting Hedging or Pledging of Our Equity Securities

Our insider trading policy prohibits all our employees, including our executive officers, and the members of our board of directors from engaging in derivative securities transactions, including hedging, regarding our common stock and from pledging company securities as collateral or holding company securities in a margin account.

Clawback Policy

On December 13, 2018, the compensation committee of our board of directors approved an Executive Compensation Clawback Policy, or the clawback policy. To the extent permitted by applicable law, the clawback policy requires our executive officers to repay to MaxLinear certain incentive compensation if (i) we restate our financial statements as a result of a material error or due to material non-compliance with reporting requirements under applicable law; (ii) no more than three (3) years have elapsed since the original filing date of the financial statements; and (iii) an independent committee of our board or our board's compensation committee determines, in its sole discretion, that the misreporting event occurred due to fraud or intentional misconduct within MaxLinear and, following consideration of such factors as the committee may deem reasonable and appropriate, including the extent to which an executive officer knew or should have known of the factors resulting in the misreporting, that the executive officer should repay any "recoverable compensation." Recoverable compensation is defined in

the clawback policy but generally includes any cash or equity compensation paid under our Executive Incentive Bonus Plan or 2010 Equity Incentive Plan to the extent the amount actually paid by MaxLinear exceeds the amount that would have been paid if the financial misreporting event had not occurred. In order to implement the provisions of the clawback policy, our compensation committee also approved amendments to our Executive Incentive Bonus Plan and 2010 Equity Incentive Plan that subjected awards under those plans to the clawback policy. The clawback policy applies to awards under our Executive Incentive Bonus Plan and 2010 Equity Incentive Plan for fiscal years beginning on and after January 1, 2019.

COMPENSATION OF NON-EMPLOYEE DIRECTORS**Director Compensation Policy**

Our board of directors makes its director compensation decisions based in part on data provided by Compensia, Inc., an independent compensation consulting firm retained by our compensation committee to evaluate our compensation policies for independent directors. Our compensation committee and board periodically review our director cash and equity compensation policy, in consultation with Compensia, and seek to ensure that equity incentives for our non-employee directors are competitive with our peer group and that they offer appropriate incentives to continued service as a director or, for prospective directors, to join our board.

Cash Compensation

The following table summarizes the cash compensation payable to our non-employee directors under our current compensation policy. There were no changes to our cash compensation payable to non-employee directors during 2018, and we do not currently expect to revise non-employee director compensation prior to 2020. The composition of our peer group is discussed more fully in the subsection of this proxy statement captioned “Compensation Discussion and Analysis.”

(1) All fees are payable on a quarterly basis.

(2) Committee chairs receive both the fees applicable to such position and the fee applicable to committee membership.

Equity Compensation

In connection with our initial public offering, our compensation committee developed a policy relating to equity compensation for our non-employee directors under our 2010 Equity Incentive Plan. The policy initially provided for the grant of stock options upon first becoming a director and annual option grants at subsequent annual meetings, and our compensation committee has generally reviewed our compensation philosophies and policy on a bi-annual basis in consultation with Compensia. In February 2012, our board and compensation committee amended our outside director equity incentive policy to provide for the grant of shares of our common stock (formerly class A common stock) rather than stock options. Our board and compensation committee reviewed its compensation philosophies again in May 2014, June 2016 and, most recently, in May 2018. The principle change arising from the June 2016 review was an increase in new and continuing director equity incentive awards to a value between the 50th and 75th percentile of our then-current peer group. The principle change arising from the May 2018 review was an increase in new and continuing director equity incentive awards to \$165,000. Our board and compensation committee do not currently expect to review non-employee director compensation prior to 2020 although they may make modifications if they determine appropriate based on changed circumstances. In addition, under our 2010 Equity Incentive Plan, during any fiscal year, none of our non-employee directors will be granted awards having an initial value greater than \$700,000.

The terms of our outside director equity compensation policy, as amended through May 2018, are set forth below.

New Directors

Under the terms of the policy as currently in effect, new directors receive, upon becoming a director, an initial award of shares of common stock having a fair value at issuance of up to \$330,000, consisting of an “annual award” equal to \$165,000 of restricted stock units (subject to pro-rata reduction based on the number of days the individual would actually serve as a director during the period beginning on the last May 1 and ending on the next May 1) and a “full-term award” equal to \$165,000 of restricted stock units. The annual award vests fully on the earlier to occur of the next May 1 or the date immediately preceding our next annual meeting of stockholders, and the full-term award vests in three equal installments on each anniversary of the date of grant.

Continuing Directors

In addition, our outside director equity compensation policy also provides for an annual award to continuing directors on the date of each annual meeting of stockholders of restricted stock units with a fair value at issuance of \$165,000. These restricted stock units vest, assuming continued service, on the earlier to occur of the next succeeding May 1 or the date immediately preceding the next annual meeting of stockholders.

RSU Deferred Payment Alternative

Our outside director compensation policy was amended in December 2015 to permit our directors to receive awards under our outside director equity compensation policy in the form of restricted stock units, or RSUs, and to defer the delivery of the shares of common stock subject to the RSU award upon vesting in accordance with the terms and conditions of a deferral program approved by the administrator of the policy, which is currently our compensation committee.

2018 Director Compensation

PROPOSAL NUMBER 1
ELECTION OF TWO CLASS I DIRECTORS

Board Structure

As of the date of this proxy statement, our board of directors is composed of eight members. As described below, Steven C. Craddock is retiring as a director and is not standing for re-election at the annual meeting. Our board of directors has fixed the authorized number of directors at seven to be effective as of the annual meeting, with the elimination of a Class I directorship. Our amended and restated certificate of incorporation and amended and restated bylaws provide that the number of our directors shall be at least two and will be fixed from time to time by a resolution of the majority of our board of directors.

Our board of directors is divided into three staggered classes of directors. At each annual meeting of stockholders, a class of directors will be elected for a three-year term to succeed the class whose terms are then expiring. The terms of the directors will expire upon the election and qualification of successor directors at the annual meetings of stockholders to be held this year for the Class I directors, in 2020 for the Class II directors, and in 2021 for the Class III directors.

On February 13, 2017, our board of directors approved an amendment and restatement of our bylaws to provide for majority voting in the election of directors. The amended and restated bylaws provide that each director nominee will be elected to the board of directors if the votes cast for such nominee's election exceed the votes cast against such nominee's election. Our board of directors, after taking into consideration the recommendation of the nominating and governance committee, will determine whether or not to accept the pre-tendered resignation of any nominee for director who receives (in an uncontested election) a greater number of votes against his election than votes for such election. In the event of a contested election in which there are more candidates than available seats, our bylaws retain a plurality voting standard, which is the default standard under Delaware law.

Retirement of Director Steven C. Craddock

Steven C. Craddock, who has served as a member of our board of directors since March 2011, shortly after our initial public offering, will retire as a director of MaxLinear upon the expiration of his current term at the 2019 annual meeting of stockholders. Dr. Seendripu, our chairman and chief executive officer, and the rest of our board of directors sincerely thank Mr. Craddock for his dedicated service and broadband industry insight over the last eight years.

Nominees for Class I Director (Term Expiring in 2022)

At the 2019 annual meeting, two Class I directors will be elected to the board of directors by the holders of our common stock. Our nominating and governance committee recommended, and our board of directors nominated Donald E. Schrock and Daniel Artusi as the nominees for election as Class I directors at the 2019 annual meeting.

Mr. Schrock and Mr. Artusi have agreed to serve if elected, and management has no reason to believe that they will be unavailable to serve. In the event either Mr. Schrock or Mr. Artusi is unable or declines to serve as a director at the time of the 2019 annual meeting, proxies will be voted for any nominee who may be proposed by the nominating and governance committee and designated by the present board of directors to fill the vacancy.

Mr. Artusi also currently serves on the board of directors of privately held technology companies GenXComm, Inc., Scipio and VisIC, and on the Engineering Advisory Board of the Cockrell School of Engineering at the University of Texas at Austin. Mr. Artusi studied electrical engineering at the Instituto Tecnológico de Buenos Aires (ITBA) in Argentina.

We believe that Mr. Artusi's financial and business expertise, including a diversified background in the semiconductor industry, give him valuable qualifications and skills to serve as one of our directors.

Required Vote

Directors are elected by a majority vote, which means that each of the two director nominees requires the votes cast for such nominee's election to exceed the votes cast against such nominee's election in order to be elected. Abstentions and broker non-votes are not deemed to be votes cast and, therefore, are not included in the tabulation of the voting results on this proposal and will not affect the outcome of the vote.

Recommendation

Our board of directors unanimously recommends a vote "FOR" the election of each of Mr. Schrock and Mr. Artusi as a Class I director.

PROPOSAL NUMBER 2

ADVISORY VOTE TO APPROVE NAMED EXECUTIVE OFFICER COMPENSATION

The Dodd-Frank Wall Street Reform and Consumer Protection Act, or the Dodd-Frank Act, was enacted on July 21, 2010. As required by the Dodd-Frank Act (and specifically Section 14A of the Securities Exchange Act of 1934, as amended), we are asking our stockholders to approve, on an advisory basis, the compensation of our named executive officers as described in this proxy statement. This proposal, commonly known as a “say-on-pay” proposal, gives our stockholders the opportunity to express their views on the compensation of our named executive officers.

Compensation Program and Philosophy

Our compensation committee establishes our executive compensation philosophy and oversees our executive compensation programs. We believe that it is appropriate to seek the views of our stockholders on the design and effectiveness of our executive compensation program. At our 2011 annual meeting of stockholders, we held our first non-binding, advisory stockholder vote on executive compensation under the Dodd-Frank Act. The advisory vote on executive compensation received approximately 97%, 98%, 96%, 96%, 98%, 98%, and 96% support of the votes cast by stockholders in 2012, 2013, 2014, 2015, 2016, 2017, and 2018, respectively. As an advisory vote, the results of this stockholder vote are not binding upon us; however, our compensation committee, which is responsible for designing and administering our executive compensation program, values the opinions expressed by stockholders in their vote and considered the outcome of this vote when it made compensation decisions for named executive officers. In addition, at our 2017 annual meeting of stockholders, the stockholders approved holding the advisory vote every year, which we believe will allow for a meaningful evaluation period of performance against our compensation practices.

Under our compensation committee’s supervision, we have implemented compensation policies, plans, and programs intended to achieve the following objectives:

- to attract and retain talented and experienced executives;
- to motivate and reward executives whose knowledge, skills and performance are critical to our success;
- to ensure fairness among the executive management team by recognizing the contributions each executive makes to our success; and
- to incentivize our executives to manage our business to meet our long-term objectives and the long-term objectives of our stockholders.

Under this program, our named executive officers are rewarded for the achievement of specific short-term and long-term goals that enhance stockholder value. Stockholders are urged to read the Compensation Discussion and Analysis section of this proxy statement, which describes our executive compensation program and contains information about the fiscal year 2018 compensation of our named executive officers. The compensation committee and our board of directors believe that our compensation design and practices are effective in implementing our executive compensation goals.

We are asking our stockholders to indicate their support for the compensation of our named executive officers as described in this proxy statement by voting in favor of the following resolution:

“RESOLVED, that the stockholders hereby approve, on an advisory basis in a non-binding vote, the compensation of MaxLinear, Inc.’s named executive officers, as disclosed in this proxy statement pursuant to Item 402 of Regulation S-K, including the section captioned “Executive Compensation,” the subsection captioned “Compensation Discussion and Analysis,” the tabular disclosures regarding executive compensation, and the accompanying narrative disclosures set forth in the proxy statement relating to MaxLinear’s 2019 annual meeting of stockholders.”

Required Vote

The affirmative “FOR” vote of a majority of the votes cast on the proposal is required to approve, on an advisory basis, the compensation awarded to named executive officers for the year ended December 31, 2018. You may vote “FOR,” “AGAINST,” or “ABSTAIN” on this proposal. Abstentions and broker non-votes are not deemed to be votes cast, are not included in the tabulation of voting results on this proposal, and will not affect the outcome of voting on this proposal.

Even though this say-on-pay vote is advisory and, therefore, will not be binding on us, our compensation committee and our board of directors value the opinions of our stockholders. Accordingly, to the extent there is a significant vote against the compensation of our named executive officers, we will consider our stockholders' concerns, and the compensation committee will evaluate what actions may be necessary or appropriate to address those concerns.

Recommendation

Our board of directors unanimously recommends a vote "FOR" the approval, on an advisory basis, of the compensation of our named executive officers as disclosed in this proxy statement.

PROPOSAL NUMBER 3

**RATIFICATION OF APPOINTMENT OF INDEPENDENT
REGISTERED PUBLIC ACCOUNTING FIRM**

Our audit committee has appointed Grant Thornton LLP as MaxLinear's independent registered public accounting firm to audit our consolidated financial statements for the fiscal year ending December 31, 2019 and recommends that stockholders vote in favor of the ratification of such appointment.

Ratification of Appointment

At the annual meeting, stockholders are being asked to ratify the appointment of Grant Thornton LLP as our independent registered public accounting firm for our fiscal year ending December 31, 2019.

Notwithstanding Grant Thornton LLP's appointment and even if stockholders ratify the appointment, our audit committee, in its discretion, may appoint another independent registered public accounting firm at any time during the year if the audit committee believes that such a change would be in the best interests of MaxLinear and its stockholders. Our audit committee is submitting the appointment of Grant Thornton LLP to our stockholders because we value our stockholders' views on our independent registered public accounting firm and as a matter of good corporate governance. If the appointment is not ratified by our stockholders, our audit committee may reconsider whether it should appoint another independent registered public accounting firm.

Representatives of Grant Thornton LLP are expected to attend the annual meeting, where they will be available to respond to appropriate questions and, if they desire, to make a statement.

Required Vote

Ratification of the appointment of Grant Thornton LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2019 requires the affirmative "FOR" vote of a majority of the votes cast on the proposal. You may vote "FOR," "AGAINST," or "ABSTAIN" on this proposal. Abstentions and broker non-votes are not deemed to be votes cast, are not included in the tabulation of voting results on this proposal, and will not affect the outcome of voting on this proposal.

Recommendation

Our board of directors unanimously recommends a vote "FOR" the ratification of the appointment of Grant Thornton LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2019.

Principal Accounting Fees and Services

The following table sets forth the aggregate fees for audit and other accounting services provided by Grant Thornton LLP for the years ended December 31, 2018 and 2017:

	2018	2017
Audit Fees(1)	\$ 1,148,132	\$ 1,828,848
Audit-Related Fees	—	—
Tax Fees	—	—
All Other Fees	—	—
Total	<u>\$ 1,148,132</u>	<u>\$ 1,828,848</u>

(1) Audit fees for 2018 and 2017 consist of fees billed or to be billed by Grant Thornton LLP, including professional services rendered for quarterly, annual and other SEC filing activities, along with those audit services related to acquisitions and the implementation of new accounting standards. The decrease in fees from 2017 to 2018 primarily related to services related to our 2017 acquisitions, including Exar.

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services

Consistent with the requirements of the SEC and the Public Company Accounting Oversight Board, or PCAOB, regarding auditor independence, our audit committee has responsibility for appointing, setting compensation, and overseeing the work of our independent registered public accounting firm. In recognition of this responsibility, our audit committee has established a policy for the pre-approval of all audit and permissible non-audit services provided by the independent registered public accounting firm.

Prior to the engagement of the independent registered public accounting firm for the next year's audit, management submits a list of services falling within the four categories below expected to be rendered by the firm during that year and the related fees to the audit committee for approval.

1. **Audit** services include audit work performed on the financial statements, as well as work, including information systems and procedural review and testing, that is required to be performed by the independent registered public accounting firm to allow the firm to form an opinion on our financial statements. Audit services also include services that only the independent registered public accounting firm can reasonably be expected to provide, including comfort letters and statutory audits.

2. **Audit-related** services are for assurance and related services that are reasonably related to the performance of the audit or review of our financial statements and/or internal control over financial reporting or that are traditionally performed by the independent registered public accounting firm and include due diligence related to mergers and acquisitions, audits of employee benefit plans and special procedures required to meet certain regulatory requirements.

3. **Tax** services include services such as tax compliance, tax planning and tax advice, as long as such services do not impair the independence of the independent registered public accounting firm and are consistent with the SEC's rules on auditor independence.

4. **All other** services are those services not captured in the audit, audit-related, or tax categories.

Prior to engagement, the audit committee pre-approves the independent registered public accounting firm's services within each of the four categories described above and the fees for each category are budgeted. The audit committee requires the independent registered public accounting firm and management to report actual fees versus the budgeted amount periodically throughout the year by category of services. During the year, circumstances may arise when it may become necessary to engage the independent registered public accounting firm for additional services not contemplated in the original pre-approval categories. In those instances, the audit committee requires specific pre-approval before engaging the independent registered public accounting firm.

The audit committee may delegate pre-approval authority to one or more of its members provided that such member must report, for informational purposes only, any pre-approval decisions to the audit committee at its next scheduled meeting.

The audit committee has determined that the rendering of services other than audit services by Grant Thornton LLP is consistent with maintaining Grant Thornton LLP's independence. All of the services of Grant Thornton LLP for 2017 and 2018 described above were pre-approved by the audit committee.

Report of the Audit Committee

The audit committee assists the board in fulfilling its oversight responsibility over MaxLinear's financial reporting process. It is not the duty of the committee to plan or conduct audits, to prepare MaxLinear's financial statements, or to assess MaxLinear's internal controls over financial reporting. Management has the primary responsibility for preparing the financial statements and assuring their accuracy, effectiveness, and completeness. Management is also responsible for the reporting process, including the system of internal controls. The independent registered public accounting firm is responsible for auditing MaxLinear's financial statements and internal control over financial reporting and expressing its opinion as to whether the statements present fairly, in accordance with accounting principles generally accepted in the United States, MaxLinear's financial condition, results of operations, and cash flows. The audit committee does, however, consult with management and the independent registered public accounting firm prior to the presentation of financial statements to stockholders and, as appropriate, initiates inquiries into various aspects of MaxLinear's financial affairs.

Unless the committee has reason to question its reliance on management or the independent registered public accounting firm, the members of the committee necessarily rely on information provided to them by and on the representations made by management and the independent registered public accounting firm. Accordingly, the audit committee's oversight does not provide an independent basis to determine that management has applied appropriate accounting and financial reporting principles. Furthermore, the audit committee's authority and oversight responsibilities do not independently assure that the audits of MaxLinear's financial statements have been carried out in accordance with the standards of the Public Company Accounting Oversight Board (PCAOB) or that the financial statements are presented in accordance with accounting principles generally accepted in the United States.

In this context, the committee has met and held discussions with management and the independent registered public accounting firm regarding MaxLinear's audited 2018 consolidated financial statements (including the quality of MaxLinear's accounting principles). Management represented to the committee that MaxLinear's consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States, and the committee consulted with management and the independent registered public accounting firm prior to approving the presentation of the audited 2018 consolidated financial statements to stockholders. The committee discussed with the independent registered public accounting firm the matters required to be discussed by Statement on Auditing Standard No. 1301, *Communications with Audit Committees*, as adopted by the PCAOB.

The audit committee has received and discussed with the independent registered public accounting firm the auditor's independence from MaxLinear and its management. As part of that review, the committee received the written disclosures and letter required by the applicable requirements of the PCAOB regarding the independent accountant's communications with the audit committee concerning independence. The committee has also considered whether the provision of non-audit services by the independent registered public accounting firm is compatible with, or has compromised, the auditor's independence. The committee has concluded that the independent registered public accounting firm is independent from MaxLinear and its management.

Based on the reviews and discussions referred to above, the audit committee recommended to the board, and the board approved, MaxLinear's audited consolidated financial statements for the year ended December 31, 2018 for filing with the Securities and Exchange Commission as part of our Annual Report on Form 10-K. The committee has selected Grant Thornton LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2019.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This compensation discussion and analysis reviews and discusses the compensation programs and policies for our principal executive officer, principal financial officer, former principal financial officer, and three (3) additional executive officers who were collectively our most highly compensated executive officers in fiscal 2018 as determined by the rules of the Securities and Exchange Commission, or SEC. For 2018, these executive officers were Kishore Seendripu, Ph.D., our chairman, president, and chief executive officer; Steven Litchfield, our chief financial officer and chief corporate strategy officer; Madhukar Reddy, our vice president, central engineering; William G. Torgerson, our vice president and general manager, broadband group; Michael Bollesen, our vice president, sales; and Adam C. Spice, our former vice president and chief financial officer. As a group, we refer to these executive officers as our “named executive officers,” and they are identified in the summary compensation table provided below.

Objectives of Executive Compensation Programs

The principal objectives of our executive compensation programs are the following:

- to attract and retain talented and experienced executives;
- to motivate and reward executives whose knowledge, skills, and performance are critical to our success;
- to ensure fairness among our executive management team by recognizing the contributions each executive makes to our success; and
- to incentivize our executives to manage our business to meet our long-term objectives and the long-term objectives of our stockholders.

Compensation Philosophy and Review Process; Modifications to 2019 Long-Term Equity Incentive Program

Since our initial public offering in 2010, we have attempted to create an executive compensation structure that aligns executive incentives with the long-term growth objectives of MaxLinear, including long-term share price appreciation. In that regard, our executive compensation programs have tended to place a relatively heavier weighting on equity compensation than our peers. Equity compensation for executives has typically consisted of two elements: restricted stock units vesting over four years and shares of common stock issued under our Executive Incentive Bonus Plan, pursuant to which the compensation committee establishes annual corporate and individual performance objectives for purposes of determining awards under the plan.

On a periodic basis our compensation committee engages Compensia, an independent compensation consulting firm, to assist the committee in identifying an appropriate peer group, evaluating compensation trends among that peer group, and determining levels of compensation for our executive officers. Compensia conducted its last comprehensive review in November 2017 for purposes of determining levels of executive compensation in 2018. While the compensation committee continued to rely on the November 2017 data set for purposes of 2019 decision-making, it consulted with Compensia in March 2019 for purposes of making the modifications to the structure of our equity incentive program described below. As noted later in this section, for purposes of 2019 compensation, the compensation committee has determined to make no adjustments in base salary levels or target bonus percentages for our named executive officers.

We believe our compensation programs have been effective in encouraging long-term share ownership by management and in aligning stockholder and management interests. Recently, however, the compensation committee, in consultation with Compensia, evaluated our long-term incentive program relative to market trends and in light of institutional investor commentary. As a result of this evaluation, the compensation committee has approved the following modifications to MaxLinear’s long-term equity incentive program, effective with awards to be made for 2019:

- A portion of each executive’s 2019 restricted stock unit awards will be in the form of performance stock units that will only vest subject to satisfaction of financial performance milestones.
- For our chief executive officer and chief financial officer, 2019 equity incentive grants will be weighted equally between performance stock units and time-based restricted stock units. For other executive officers, time-based restricted stock units will represent 75% of the executive’s total equity incentive award for 2019 with the balance consisting of performance stock units.

The compensation committee believes that these modifications will further align executive and stockholder interests and benefit stockholders generally by directly linking the issuance of shares of common stock to actual financial performance. We expect 2019 equity incentive awards for our named executive officers to be considered and approved at our regularly scheduled board meeting in the second quarter of 2019.

Determination of Allocations Between Cash and Equity

Our compensation committee generally determines allocations of compensation between cash and equity or among different forms of non-cash compensation based on its review of typical allocations within our compensation peer group. The committee has not adopted, however, and has no current plans to adopt, any policy requiring a specific allocation between cash and equity compensation or between short-term and long-term compensation, and as noted above, relative to our peers, our compensation programs have typically been weighted heavily towards equity compensation. In the course of its deliberations, our compensation committee reviews each component of compensation, how they relate to each other, and in particular how they relate to and affect total compensation. Our compensation committee's philosophy is that a substantial portion of an executive officer's compensation should be performance-based, whether long-term incentives in the form of equity or short term annual incentives tied to corporate and individual performance objectives. In that regard, we expect to continue to use equity incentive awards as a significant component of compensation because we believe that they best align individual compensation with the creation of stockholder value. Bonus programs we have implemented in the past were, and we expect any future programs will be, substantially tied to annual financial performance targets.

Role of Our Compensation Committee

Our compensation committee has responsibility for determining the compensation of all executive officers. Our compensation committee operates under a written charter adopted by our board of directors, which establishes the duties and authority of our compensation committee. The fundamental responsibilities of our compensation committee are as follows:

- to oversee our overall compensation philosophy, compensation plans, and benefit programs and to make recommendations to our board of directors with respect to improvements or changes to such plans;
- to review and approve all cash and equity compensation arrangements for our executive officers (including our chief executive officer);
- and
- to oversee and administer our equity compensation plans.

Our compensation committee is comprised of the following non-employee members of our board of directors: Thomas E. Pardun, who chairs our compensation committee, Steven C. Craddock, Donald E. Schrock, and Daniel Artusi. Mr. Artusi joined our board of directors in November 2018. Mr. Craddock will be retiring from our board in conjunction with the 2019 annual meeting and, therefore, will no longer serve on our compensation committee. Each of Mr. Pardun, Mr. Craddock, Mr. Schrock, and Mr. Artusi is an independent director under the rules of the New York Stock Exchange, and a "non-employee director" for purposes of Rule 16b-3 under the Securities Exchange Act of 1934, as amended. Our compensation committee has the authority under its charter to engage the services of outside advisors and experts.

Kishore Seendripu, Ph.D., our chairman, president, and chief executive officer, supports our compensation committee's work by providing information relating to our financial plans, performance assessments of our officers, and other personnel-related data. In particular, as the person to whom our other named executive officers directly report, Dr. Seendripu is responsible for evaluating each individual officer's contribution to corporate objectives as well as their performance relative to individual objectives. He makes recommendations to our compensation committee with respect to base salary adjustments, targets under our annual incentive programs, and awards under our equity incentive plan. Our compensation committee is not required to follow any recommendations of Dr. Seendripu and exercises its discretion in modifying, accepting, or rejecting any recommended adjustments or awards. Without the participation of Dr. Seendripu, our compensation committee, as part of the annual review process, conducts a similar evaluation of his contribution and individual performance and makes determinations with respect to any base salary adjustments, targets under any annual cash incentive programs, and stock option grants or other equity incentives.

Competitive Market Review

The market for experienced management is highly competitive in the semiconductor industry. We seek to attract and retain the most highly qualified executives to manage each of our business functions, and we face substantial competition in recruiting management from companies ranging from established players with multibillion dollar revenues to entrepreneurial, early-stage companies. We are fortunate that many members of our executive management team have long tenures with us, but

from time to time we also have been required to recruit new executive officers. For example, two of our current executives, our chief financial officer and chief corporate strategy officer and our vice president of sales, joined us in July 2018. As a result of this recruitment and more generally with respect to executive officer recruitment and retention, we need to ensure that our executive compensation programs provide sufficient recruitment and retention incentives as well as incentives to achieve our long-term strategic business and financial objectives. We expect competition for individuals with our required skill sets, particularly technical and engineering skills, to remain intense even in weak global macroeconomic environments.

As described above, our compensation committee periodically engages Compensia, an independent compensation consulting firm with substantial experience in the technology sector, to evaluate our levels and types of executive compensation and to recommend changes as appropriate. Among other objectives, Compensia has assisted us in identifying a group of peer companies for purposes of benchmarking our levels of compensation; gathered and analyzed compensation data from those peer companies as well as from other available compensation data; advised us on the creation and implementation of performance-based incentive plans, including determining target bonus levels; and assisted us in structuring awards as part of the equity incentive element of our compensation program, including assisting us in establishing appropriate amounts for equity incentive awards.

Mr. Pardun consults regularly with Compensia in connection with specific aspects of or questions relating to our executive compensation, and our compensation committee periodically engages Compensia to conduct a comprehensive review as our compensation committee determines necessary. For example, as described above, the compensation committee engaged Compensia in the first quarter of 2019 to evaluate our long-term equity incentive plan. Aggregate fees paid for Compensia's services to our compensation committee did not exceed \$120,000 during 2018 or in any prior fiscal year.

For purposes of its periodic reviews, our compensation committee, in consultation with Compensia, has established a peer group of companies that it believes to be reasonably comparable to MaxLinear with respect to size, business scope, and market capitalization. The committee, in consultation with Compensia, updates the peer group from time to time to reflect changed circumstances (e.g., mergers and sale transactions) affecting the peer group.

Our current peer group is set forth in the table below. Consistent with consolidation in the semiconductor industry, some of the companies listed below have recently been acquired or are in the process of being acquired, including Cavium, Inc., Integrated Device Technology, Inc., IXYS Corporation, Microsemi Corporation and Quantenna Communications, Inc.

Elements of Executive Compensation

Our executive compensation program currently consists, and is expected to continue to consist, of the following components:

- base salary;
- annual incentive compensation, which in recent years we have paid in the form of equity-based awards under our equity incentive plan;
- equity-based incentives, principally in the form of time-based vesting of restricted stock units and, beginning in 2019, performance stock units;
- benefits (on substantially similar terms as provided to our other employees); and
- severance/termination protection, including in connection with certain change of control transactions, which were amended in December 2018 following consultation with Compensia concerning market practices and which are described in greater detail later in this section.

The determination of our compensation committee as to the appropriate use and weight of each component of executive compensation is subjective, based on its view of the relative importance of each component in meeting our overall objectives and factors relevant to the individual executive and in consideration of aligning management's interest with the stockholders' interest.

Base Salary

The following table sets forth our base 2018 and 2019 base salary levels for each of our named executive officers. For 2019, the compensation committee has determined to make no adjustments to base salaries for our named executive officers as it intends to focus 2019 executive compensation adjustments on long-term equity incentives intended to return MaxLinear to a growth profile.

Annual Incentive Program for 2018 Corporate Performance Period

Our compensation committee periodically reviews our philosophy and practices concerning annual incentive compensation. Our compensation committee believes that our continuing focus on revenue generation and achieving specific financial and operating performance metrics supports implementation of an incentive program with payouts earned through achievement of identified corporate objectives and individual performance. Accordingly, our executive incentive bonus plan establishes award targets, corporate objectives, and potential adjustments for each executive officer at various levels of under-performance or over-performance.

In 2017, our compensation committee established a single performance period under the executive incentive bonus plan linked to corporate financial performance targets over the course of the full fiscal year and has continued this practice for the 2018 and 2019 corporate performance periods. In the past, the compensation committee modified the structure of the plan and bifurcated the performance period into two first and second half periods in each of 2015 and 2016 to focus management on near-term objectives in the two performance periods. Our compensation committee expects to reevaluate the structure of the executive incentive bonus program, including the duration of the relevant performance periods, on an annual basis.

In making its decisions whether financial targets have been achieved under our executive incentive bonus plan, our compensation committee has the authority to make appropriate adjustments to the targets for the expected effects of any acquisitions or other approved business plan changes made during the course of the particular corporate performance period; to adjust revenue as it determines appropriate to exclude certain non-recurring items under generally accepted accounting principles such as gains or losses on sales of assets; and to adjust our reported operating income or loss to exclude certain charges from our operating expenses, including stock compensation expense, bonus plan accruals, restructuring and impairment charges, any acquisition related charges, and expenses associated with litigation or other regulatory matters. For purposes of determining the portion of awards based on individual performance, the standard is subjective based on the committee's discretion and views with input from Dr. Seendripu relating to the performance of executive officers reporting to him.

2018 Bonus Awards

Bonus awards under our executive incentive bonus plan for the 2018 corporate performance period were based on target metrics for revenue, non-GAAP gross margin, and non-GAAP operating expenses, as well as a subjective individual performance metric. Relative to the aggregate 2018 bonus opportunity, revenue carried a 40% weighting; gross margin carried a 20% weighting; and non-GAAP operating expenses carried a 20% weighting. The balance of the bonus opportunity, or 20%, was based on our compensation committee's discretionary views of each executive's individual performance (informed with

respect to Dr. Seendripu's direct reports by his input to the committee). For each financial performance objective, our compensation committee established a minimum threshold condition (or in the case of the non-GAAP operating expense objective, a maximum threshold condition) that was required to be achieved before the objective was deemed satisfied. Awards were then to be determined on a linear, percentage basis for performance between the minimum threshold and target level of performance, with the bonus amount allocable to the objective being 100% earned at target performance. For performance better than target, awards were eligible for upward adjustment on a linear, percentage basis, subject to a cap at 150% of the target award opportunity allocable to each performance metric.

Actual revenues for 2018 did not meet the revenue target, and no bonuses were paid with respect to the revenue objective. Based on corporate performance in excess of the gross margin and strong performance relative to our non-GAAP operating expense targets, in the first quarter of 2019, each of the named executive officers received bonus awards based on corporate and individual performance at an aggregate payment ratio of approximately 76% for the 2018 performance period. Bonus payments with respect to the individual performance element was, consistent with prior years, largely subjective.

Bonus Payments

Actual bonus amounts for each of the named executive officers under the executive incentive bonus plan for the 2018 performance period are set forth below (and the amount of such bonus awards is separated for each named executive officer based on corporate performance targets and individual performance).

Executive Officer	Total 2018 Bonus Targets		2018 Bonuses Paid		
	% Base Salary	Target (\$)	Corporate Targets (\$)	Individual Performance (\$)	Total Bonus (\$)
Kishore Seendripu, Ph.D.	110%	605,000	318,704	106,234	424,938
Steven Litchfield	70%	99,831	53,909	25,956	79,865
Madhukar Reddy, Ph.D.	60%	186,000	99,132	44,058	143,190
William G. Torgerson	60%	180,000	96,328	32,109	128,437
Michael Bollesen	60%	65,423	35,328	13,085	48,413
Adam C. Spice(1)	70%	252,000	—	—	—

(1) Mr. Spice served as Vice President and Chief Financial Officer until May 2018.

Equity-Based Payments

All executive bonus awards for the 2018 performance period were settled in shares of our common stock in February 2019, with the amount calculated by dividing the cash equivalent bonus award by the closing price of our common stock in trading on the New York Stock Exchange on the settlement date. The number of shares otherwise issuable in connection with bonus awards to executive officers were reduced by an amount equal to applicable withholding taxes, which we remitted in cash to applicable governmental authorities.

Annual Incentive Program for 2019 Corporate Performance Period

For 2019 and consistent with 2018, our compensation committee has established one performance period under our executive incentive bonus plan with actual awards dependent on achievement of corporate performance targets and individual performance over the course of the full fiscal year. Our compensation committee currently believes that any payments for the 2019 performance period will be settled in shares of our common stock, consistent with recent periods, but the committee reserves the right under our executive incentive bonus plan to make payment in cash.

Target 2019 awards for the named executive officers are set forth in the following table, with bonus targets as a percentage of base salary remaining unchanged from 2018:

Executive Officer	2019 Bonus Targets	
	% Base Salary	Target (\$)
Kishore Seendripu, Ph.D.	110%	605,000
Steven Litchfield	70%	252,000
Madhukar Reddy, Ph.D.	60%	186,000
William G. Torgerson	60%	180,000
Michael Bollesen	60%	162,000

For purposes of the 2019 corporate performance period under our Executive Incentive Bonus Plan, the compensation committee has modified the applicable corporate performance objectives. For 2019, corporate performance objectives will relate to total revenue, non-GAAP gross margins, and non-GAAP operating income. While the compensation committee has not finalized the relative weightings of the corporate objectives for 2019, it has determined to reduce the weighting of the subjective, individual performance condition to ten percent (10%).

Equity-Based Incentives

We grant equity-based incentives to employees, including our executive officers, in order to create a corporate culture that aligns employee interests with stockholder interests. Other than the issuance of shares to our founders when we were first incorporated, our equity incentive plans have provided the principal method for our executive officers to acquire an equity position in our company. We have not granted, nor do we intend to grant, equity compensation awards in anticipation of the release of material, nonpublic information that is likely to result in changes to the price of our common stock, such as a significant positive or negative earnings announcement. Similarly, we have not timed, nor do we intend to time, the release of material, nonpublic information based on equity award grant dates.

In connection with our initial public offering, our board of directors adopted the 2010 Equity Incentive Plan, which became effective in March 2010 upon the completion of our initial public offering. The 2010 Equity Incentive Plan permits the grant of stock options, stock appreciation rights, restricted stock, restricted stock units, performance units, performance shares, and other stock-based awards. All equity incentive plans and awards are administered by our compensation committee under the delegated authority established in our compensation committee charter.

To date and subject to the 2019 modifications described at the beginning of this compensation discussion and analysis, our equity incentives have been granted with time-based vesting. In 2011, our compensation committee determined that it was appropriate to begin granting restricted stock units in addition to stock options for both employees and executive officers. Factors contributing to the decision to begin granting restricted stock units included the competitive dynamics of the markets in which we recruit, with most larger semiconductor companies offering “full value” awards in the form of restricted stock units; the fact that competitors were using such full value awards as a recruiting inducement to our engineers and other employees; and the more favorable dilutive impact of restricted stock units relative to stock option grants. From 2015 to 2017, for these various reasons, our compensation committee determined that annual equity incentive awards for new and continuing executives would consist entirely of restricted stock units. In 2018, while annual equity retention awards to continuing executives consisted of time-based restricted stock units, the compensation committee approved equity compensation packages for our new chief financial officer and chief corporate strategy officer and our new vice president of sales that included a mix of stock options and time-based restricted stock units. The compensation committee elected to return to a stock option-based element for these executives based in part on negotiations with each of the individuals but also on the committee’s intent that these officers be substantially incentivized toward long-term stockholder value creation. In the case of our chief financial officer and chief corporate strategy officer, the committee focused particularly on the corporate development aspects of his responsibilities and MaxLinear’s stated intentions to continue to pursue sources of inorganic growth. Similarly, with respect to the vice president of sales, the committee focused on returning MaxLinear to a revenue growth trajectory. In each case, the committee felt that a material stock option component of compensation aligned these executives with long-term development and stockholder value-creation objectives.

The following table sets forth restricted stock unit awards to our named executive officers in 2018 in connection with annual compensation adjustments for existing executive officers and initial incentive compensation for Mr. Litchfield and Mr. Bollesen, who joined MaxLinear in July 2018. Our compensation committee believed that the size of the equity incentive awards is consistent with our compensation committee’s philosophy that a substantial portion of total compensation consist of

long-term equity incentives. As indicated, Mr. Litchfield's and Mr. Bollesen's 2018 equity incentive awards, which had grant date unvested fair values of approximately \$3.4 million and \$1.3 million, respectively, reflected their status as new executive officers and employees of MaxLinear. Accordingly, the size of the award was larger relative to an annual award, and the vesting conditions established with the award and described below required that they remain employed through at least the first anniversary of their hire dates before any vesting would occur. The committee believes that the size of Mr. Litchfield's and Mr. Bollesen's awards, considered in conjunction with the vesting terms and the other terms and conditions of his overall compensation program, were reasonable and appropriate.

Benefits

We provide the following benefits to our executive officers, generally on the same basis provided to all of our employees:

- health, dental, and vision insurance;
- life insurance;
- employee stock purchase plan;
- employee assistance plan;
- medical and dependent care flexible spending account or health savings account;
- short- and long-term disability, accidental death and dismemberment; and
- a 401(k) plan.

We believe that these benefits are consistent with those of companies with which we compete for employees.

Clawback Policy

On December 13, 2018, the compensation committee approved an executive compensation clawback policy, or the clawback policy. To the extent permitted by applicable law, the clawback policy requires our executive officers to repay to MaxLinear certain incentive compensation if (i) we restate our financial statements as a result of a material error or due to material non-compliance with reporting requirements under applicable law; (ii) no more than three (3) years have elapsed since the original filing date of the financial statements; and (iii) an independent committee of our board or our board's compensation committee determines, in its sole discretion, that the misreporting event occurred due to fraud or intentional misconduct within MaxLinear and, following consideration of such factors as the committee may deem reasonable and appropriate, including the extent to which an executive officer knew or should have known of the factors resulting in the misreporting, that the executive officer should repay any "recoverable compensation." Recoverable compensation is defined in the clawback policy but

generally includes any cash or equity compensation paid under our executive incentive bonus plan or 2010 Equity Incentive Plan to the extent the amount actually paid by MaxLinear exceeds the amount that would have been paid if the financial misreporting event had not occurred. In order to implement the provisions of the clawback policy, our compensation committee also approved amendments to the Executive Incentive Bonus Plan and 2010 Equity Incentive Plan that subjected awards under those plans to the clawback policy. The clawback policy applies to awards under the executive incentive bonus plan and 2010 Equity Incentive Plan for fiscal years beginning on and after January 1, 2019.

Severance and Termination Benefits

Effective December 13, 2018, we entered into amended and restated change in control and severance agreements with our chief executive officer, chief financial officer, and other executive officers. These amended and restated agreements provide for certain termination benefits both in the context of a change in control (as defined in the agreements) and outside the context of a change in control. The agreements have an initial term of three (3) years, and on each anniversary of the effective date of such agreement, the agreement will automatically renew for an additional three (3) year term from the date of such anniversary, unless either party elects to terminate at least ninety (90) days prior to the automatic renewal. For the avoidance of doubt, if the notice of non-renewal is provided, the agreement will continue in effect for the remainder of the applicable three (3) year term unless otherwise agreed by the parties in writing or as provided below. The agreements terminate on the earlier to occur of (i) the date the agreement expires, (ii) the date all obligations of the parties have been satisfied, or (iii) at any time prior to a change in control if the executive has ceased to be an “officer” for purposes of Section 16 under the Securities Exchange Act of 1934, as amended. Notwithstanding these termination provisions, if a change in control occurs and there are less than twenty-four (24) months remaining in the term of the agreement, the term of the agreement will extend automatically through the twenty-four (24) month anniversary of the change in control.

In connection with agreeing to provide these benefits, our compensation committee reviewed competitive data and consulted with Compensia. In setting the terms of and determining whether to approve these agreements, our compensation committee recognized that executives often face challenges securing new employment following termination, in particular following a change of control, and that distractions created by uncertain job security surrounding potentially beneficial transactions to us and our stockholders may have a detrimental impact on their performance. In contexts not involving a change of control, our compensation committee sought to establish a reasonable contractual benefit for precedential purposes and to fix executive expectations prior to an actual termination. In addition, the change in control severance benefits identified below are intended to provide these executive officers with post-change in control termination protection of salary and benefits while they seek new employment. We also have agreed to accelerate vesting of certain equity incentives in connection with certain terminations following a change of control, based on our view that these executive officers are not likely to be retained in comparable positions by a large acquirer, and the benefit of these equity incentives would otherwise be forfeited upon a termination of employment, including an involuntary termination by an acquiring company.

Chief Executive Officer and Chief Financial Officer and Chief Corporate Strategy Officer

Under the terms of the amended change in control and severance agreement, if Dr. Seendripu, our chief executive officer, or Mr. Litchfield, our chief financial officer and chief corporate strategy officer, terminates his employment with us for good reason (as defined in the agreement), or if we terminate him without cause (as defined in the agreement), and such termination occurs outside of the period beginning three (3) months prior to and ending twenty-four (24) months following a change in control, the executive would be entitled to receive the following benefits:

- a lump sum cash payment equal to twelve (12) months of the executive’s then-current base salary;
- a lump sum cash payment equal to a pro-rated amount of his target annual bonus for the year of termination based on the number of days that occur between the start of the year and the date of termination;
- reimbursement of premiums for continued health benefits under our health plans for up to twelve (12) months following the executive’s termination; provided that the executive constitutes a qualified beneficiary under applicable law and timely elects to continue coverage under applicable law;
- any outstanding and unvested equity awards that would have vested within twelve (12) months following the date of termination solely based upon the executive’s continued service with the company would immediately vest at termination; and
- extended exercisability of outstanding and vested stock options or stock appreciation rights until the twelve (12) month anniversary of the termination date; provided that in no event will the post-termination exercise period for any individual stock option extend beyond the original maximum term.

In addition, if within the period beginning three (3) months prior to and ending twenty-four (24) months following a change in control, the executive is terminated by us or our successor without “cause” or he terminates for “good reason,” we have agreed that the executive will be entitled to receive the following benefits:

- a lump sum cash payment equal to twenty-four (24) months of his base salary, determined at a rate equal to the greater of (A) his annual salary as in effect immediately prior to the change in control or (B) his then current base salary as of the date of such termination;
- a lump sum cash payment equal to 200% of his target annual bonus for the year immediately preceding the year of the change in control, or if greater, the target bonus in effect immediately prior to the change in control;
- reimbursement of premiums for continued health benefits under our health plans for up to twenty-four (24) months following the executive’s termination; *provided that* the executive constitutes a qualified beneficiary under applicable law and timely elects to continue coverage under applicable law;
- immediate vesting of 100% of the then-unvested portion of any outstanding equity awards held by the executive; and
- extended exercisability of outstanding and vested stock options or stock appreciation rights until the twenty-four (24) month anniversary of the termination date; *provided that* in no event will the post-termination exercise period for any individual stock option extend beyond the original maximum term.

In addition, the change in control and severance agreements with Dr. Seendripu and Mr. Litchfield provide that in the event that the severance payments and other benefits payable to such executives constitute “parachute payments” under Section 280G of the Internal Revenue Code of 1986, as amended, and would be subject to the applicable excise tax, then such executive’s severance and other benefits will be either (i) delivered in full or (ii) delivered to such lesser extent which would result in no portion of such benefits being subject to the excise tax, whichever results in the receipt by such executive on an after-tax basis of the greatest amount of benefits.

Payment of the benefits described above is subject to the executive’s timely executing and not revoking a release of claims with us.

Our compensation committee and board of directors approved change in control severance benefits for Dr. Seendripu and Mr. Litchfield that are greater than the benefits provided to our other executives after considering factors such as the higher likelihood that a chief executive officer or chief financial officer will be terminated in connection with a change of control transaction as compared to the other executive officers.

Other Executive Officers

We have also entered into change in control agreements with Dr. Reddy, Mr. Torgerson and Mr. Bollesen. Under the terms of the amended change in control and severance agreement with our other executive officers, if the executive terminates his employment with us for “good reason” (as defined in the agreement), or if we terminate him without “cause” (as defined in the agreement), the executive would be entitled to receive the following benefits:

- a lump sum cash payment equal to six (6) months of the executive’s then-current base salary;
- a lump sum cash payment equal to a pro-rated amount of his target annual bonus for the year of termination based on the number of days that occur between the start of the year and the date of termination;
- reimbursement of premiums for continued health benefits under our health plans for up to six (6) months following the executive’s termination *provided that* the executive constitutes a qualified beneficiary under applicable law and timely elects to continue coverage under applicable law;
- any outstanding and unvested equity awards that would have vested within six (6) months following the date of termination solely based upon the executive’s continued service with the company would immediately vest at termination; and
- extended exercisability of outstanding and vested stock options or stock appreciation rights until the six (6) month anniversary of the termination date; provided that in no event will the post-termination exercise period for any individual stock option extend beyond the original maximum term.

In addition, if within the period beginning three (3) months prior to and ending twenty-four (24) months following a change in control, the executive is terminated by us or our successor without “cause” or he terminates for “good reason,” we have agreed that the executive would be entitled to receive the following benefits:

- a lump sum cash payment equal to twelve (12) months of the executive's base salary, determined at a rate equal to the greater of (A) his annual salary as in effect immediately prior to the change in control or (B) his then-current base salary as of the date of such termination;
- a lump sum cash payment equal to 100% of his target annual bonus for the year immediately preceding the year of the change in control, or if greater, the target bonus in effect immediately prior to the change in control;
- reimbursement of premiums for continued health benefits under our health plans for up to twelve (12) months following the executive's termination, *provided that* the executive constitutes a qualified beneficiary under applicable law and timely elects to continue coverage under applicable law;
- immediate vesting of one hundred percent (100%) of the then-unvested portion of any outstanding equity awards held by the executive; and
- extended exercisability of outstanding and vested stock options or stock appreciation rights until the twelve (12) month anniversary of the termination date; *provided that* in no event would the post-termination exercise period for any individual stock option extend beyond the original term.

Payment of the benefits described above under these change in control agreements is also subject to the executive's executing and not revoking a release of claims with us.

In addition, the change in control and severance agreements with each of the executives provide that in the event that the severance payments and other benefits payable to such executives constitute "parachute payments" under Section 280G of the Internal Revenue Code of 1986, as amended, and would be subject to the applicable excise tax, then such executive's severance and other benefits will be either (i) delivered in full or (ii) delivered to such lesser extent which would result in no portion of such benefits being subject to the excise tax, whichever results in the receipt by such executive on an after-tax basis of the greatest amount of benefits.

Role of Stockholder Say-on-Pay Votes in Determining Compensation

We believe that it is appropriate to seek the views of our stockholders on the design and effectiveness of our executive compensation program. In 2018, the advisory vote on executive compensation received approximately 96% support of the votes cast by our stockholders. Our compensation committee, which is responsible for designing and administering our executive compensation programs, values the opinions expressed by stockholders in their vote and considered the outcome of this vote when it made compensation decisions for our named executive officers.

Pay Ratio

As required by Section 953(b) of the Dodd-Frank Wall Street Reform and Consumer Protection Act, and Item 402(u) of Regulation S-K, we are providing the following information about the relationship of the annual total compensation of our employees and the annual total compensation of Dr. Kishore Seendripu, our CEO. The compensation committee believes that readers and employees should be cautious in drawing conclusions with respect to MaxLinear's compensation practices as a number of factors will affect our ratio relative to that of other companies within our peer group and industry. In particular, a substantial portion of our employee base consists of hardware and software engineers based in jurisdictions, including China and India, that are substantially less costly than the United States. Even within the United States, a substantially larger percentage of our research and development staff is based in Southern California, which tends to be less expensive than the San Francisco Bay Area. In addition, many of our employees are younger, and a substantial number of our engineering staff consists of employees who have completed their degrees within the last ten to fifteen years. We believe our compensation practices and level of compensation are appropriate and competitive with opportunities in our industry, in each of the geographic markets in which we operate, and at all levels of the organization.

For fiscal year 2018, our last completed fiscal year:

- the median of the annual total compensation of all employees of our company (other than our CEO), was \$122,801; and
- the annual total compensation of our CEO, as reported in the Summary Compensation Table presented elsewhere in this proxy statement, was \$4,104,632.

Based on this information, for fiscal year 2018, the ratio of the annual total compensation of Dr. Seendripu, our CEO, to the median of the annual total compensation of employees was 33 to 1. This pay ratio is a reasonable estimate calculated in a manner consistent with Item 402(u) of Regulation S-K.

To identify the median of the annual total compensation of all our employees, as well as to determine the annual total compensation of the “median employee,” the methodology and the material assumptions, adjustments, and estimates that we used were as follows:

- We selected December 31, 2018, as the date upon which we would identify the median employee.
- As of December 31, 2018, our employee population consisted of approximately 738 individuals, including employees in the United States, Canada, China, France, Great Britain, Hong Kong, India, Ireland, Israel, Japan, Malaysia, Singapore, Spain, South Korea and Taiwan. Material changes in the assumptions used to identify the median employee include the addition of 166 employees of our G.hn and high-performance analog businesses as of December 31, 2018, who we acquired in transactions that closed in 2017. Such employees were previously excluded from the determination of our median employee.
- To identify the “median employee” from our employee population, we used fiscal year 2018 payroll and stock-based compensation records (the “compensation measure”).
 - The compensation measure included base salary (including any paid overtime) and bonus payments.
 - We annualized the base salary of all permanent employees who did not work for us or our subsidiaries for the entire fiscal year.
 - Amounts paid in foreign currency were converted into United States dollars using average exchange rates in effect during fiscal year 2018.
- With respect to the annual total compensation of the “median employee,” we identified and calculated the elements of such employee’s compensation for fiscal year 2018 in accordance with the requirements of Item 402(c)(2)(x) of Regulation S-K, resulting in annual total compensation of \$122,801.
- With respect to the annual total compensation for the CEO, we used the amount reported in the “Total” column of our 2018 Summary Compensation Table.

Accounting and Tax Considerations

Prior to January 1, 2018, Internal Revenue Code Section 162(m) limited the amount that we could deduct for compensation paid to our chief executive officer and certain other highly compensated officers to \$1,000,000 per person, unless the compensation was “performance-based” as defined under Section 162(m). As a result of the Tax Cuts and Jobs Act that became law in late 2017, the number of individuals covered by Section 162(m) has been expanded to include our principal financial officer and the exception for “performance-based” compensation has been eliminated. While our compensation committee cannot predict how the deductibility limit may impact our compensation program in future years, our compensation committee intends to maintain an approach to executive compensation that is intended principally to link pay to performance.

Section 409A of the Code imposes additional significant taxes in the event that an executive officer, director, or other service provider receives “deferred compensation” that does not satisfy the requirements of Section 409A. Although we do not maintain traditional nonqualified deferred compensation plans, Section 409A does apply to certain change of control severance arrangements. Consequently, to assist in avoiding additional tax under Section 409A, we have designed the change in control and severance arrangements described above in a manner to avoid the application of Section 409A.

Report of the Compensation Committee

The compensation committee oversees our compensation policies, plans, and benefit programs. The compensation committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management. Based on such review and discussions, the compensation committee has recommended to the board of directors that the Compensation Discussion and Analysis be included in this proxy statement.

Includes for 2017 grants of RSUs in the following amounts: Dr. Seendripu, \$2,499,976; Dr. Reddy, \$799,981; Mr. Torgerson, \$700,000; and Mr. Spice, \$999,996. Includes for 2016 grants of RSUs in the following amounts: Dr. Seendripu, \$2,300,000; Dr. Reddy, \$1,800,000; Mr. Torgerson, \$1,650,000 and Mr. Spice, \$2,175,000. The dollar value of the RSUs shown represents the aggregate grant date fair value computed pursuant to ASC 718 and attributable to RSU awards granted to these individuals

during the periods indicated. These grant date fair values have been determined based on the assumptions described under Note 9, Stock-Based Compensation and Employee Benefit Plans, in the notes to our consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2018. As these values reflect the aggregate grant date fair value in accordance with ASC 718, they do not necessarily correspond to the actual value, if any, that may be realized by the named executive officers. The actual value that may be realized is also subject to time-based vesting restrictions that require the named executive officer to continue to provide services to us. For 2018, stock awards also includes the value of RSUs for which settlement has been deferred as described in “Executive Compensation - Non-Qualified Deferred Compensation” as follows: Dr. Seendripu, \$392,508; Mr. Litchfield, none; Dr. Reddy, \$113,038; Mr. Torgerson, \$100,467; Mr. Bollesen, none; and Mr. Spice, none.

- (3) Amounts shown do not reflect compensation actually received by the named executive officer. Instead, the amounts represent the aggregate grant date fair value related to stock option awards granted in the year indicated pursuant to ASC 718. For a discussion of the valuation assumptions, see Note 9, Stock-Based Compensation and Employee Benefit Plans, to our consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2018. The actual value that may be realized from an award is contingent upon the satisfaction of the conditions to vesting and the executive’s decisions with respect to the exercise of the option. Thus, there is no assurance that the value, if any, eventually realized will correspond to the amount shown.
- (4) Represents employer funded amounts for group term life insurance, disability insurance, and medical, dental and vision insurance premiums.
- (5) Mr. Litchfield joined MaxLinear on July 1, 2018, and his compensation included in the table above is from his start date.
- (6) Mr. Bollesen joined MaxLinear on July 30, 2018, and his compensation included in the table above is from his start date.
- (7) Mr. Spice served as Vice President and Chief Financial Officer until May 23, 2018.

(1) Awards for the 2018 corporate performance period under our executive incentive bonus plan were settled in shares of our common stock in February 2019. A complete description of the terms of our executive incentive bonus plan is set forth above under the caption “Annual Incentive Program for 2018 Corporate Performance Period.” The grant date fair value calculated under ASC 718 for awards under our executive incentive bonus plan are included in the “Stock Awards Column” of the Summary Compensation Table and in the final column of this table. The number of shares subject to the awards is calculated on the grant date based on the closing sales price of our common stock on that date. The grant dates are the effective dates that the Board approved the bonus award amounts.

- (2) These stock awards represent restricted stock units issued under our 2010 Equity Incentive Plan, as amended. Each restricted stock unit entitles the executive to receive one (1) share of our common stock at the time of vesting without the payment of an exercise price or other consideration. The shares granted on May 24, 2018 subject to restricted stock units vest quarterly over four (4) years. The shares granted on July 18, 2018 for Mr. Litchfield and on August 7, 2018 for Mr. Bollesen subject to restricted stock units vest as follows: one-fourth (25%) of the restricted stock units will vest on August 20, 2019, and an additional one-sixteenth (1/16th) of the restricted stock units will vest on each successive November 20, February 20, May 20, and August 20 thereafter, such that the award will be fully vested on August 20, 2022. Unvested restricted stock units are subject to acceleration of vesting in certain situations such as in connection with a change of control.
- (3) These stock options were issued under our 2010 Equity Incentive Plan, as amended. Each stock option entitles the executive to receive one (1) share of our common stock upon payment of an exercise price or net exercise of shares. The shares granted on August 10, 2018 subject to stock options for Mr. Litchfield vest as follows: one-fourth (25%) of the stock options vest on July 2, 2019, and an additional one-forty-eighth (1/48th) of the stock options will vest monthly, such that the award will be fully vested on July 2, 2022. The shares granted on August 10, 2018 subject to stock options for Mr. Bollesen vest as follows: one-fourth (25%) of the stock options vest on July 30, 2019, and an additional one-forty-eighth (1/48th) of the stock options will vest monthly, such that the award will be fully vested on July 30, 2022.
- (4) The shares of common stock underlying restricted stock unit awards and stock options were valued as of their respective grant dates in accordance with ASC 718. Our assumptions with respect to the calculation of stock-based compensation expense are set forth in Note 9, Stock-Based Compensation and Employee Benefit Plans, to our consolidated financial statements included in our Annual Report on Form 10-K.

Change in Control Agreements

We have entered into agreements providing termination and change of control benefits to certain of our executive officers as described under the caption “Executive Compensation, Potential Payments Upon Termination or Change of Control” above.

Indemnification of Officers and Directors

We have entered into indemnification agreements with each of our directors, executive officers, and certain controlling persons. The indemnification agreements and our certificate of incorporation and bylaws require us to indemnify our directors, executive officers and certain controlling persons to the fullest extent permitted by Delaware law.

Policy Concerning Audit Committee Approval of Related Person Transactions

Our board of directors and audit committee has adopted a formal written policy that our executive officers, directors, holders of more than 5% of any class of our voting securities, and any member of the immediate family of and any entity affiliated with any of the foregoing persons, are not permitted to enter into a related party transaction with us without the prior consent of our audit committee, or other independent members of our board of directors if it is inappropriate for our audit committee to review such transaction due to a conflict of interest. Any request for us to enter into a transaction with an executive officer, director, principal stockholder, or any of their immediate family members or affiliates, in which the amount involved exceeds \$120,000 must first be presented to our audit committee for review, consideration and approval. In approving or rejecting any such proposal, our audit committee is to consider the relevant facts and circumstances available and deemed relevant to the audit committee, including, but not limited to, whether the transaction is on terms no less favorable than terms generally available to an unaffiliated third party under the same or similar circumstances and the extent of the related party’s interest in the transaction.

Except as indicated by the footnotes below, we believe, based on the information furnished to it, that the persons and entities named in the table below have sole voting and investment power with respect to all shares of common stock that they beneficially own, subject to applicable community property laws.

Applicable percentage ownership is based on 70,500,328 shares of common stock outstanding on March 25, 2019. In computing the number of shares of common stock beneficially owned by a person and the percentage ownership of that person, we deemed outstanding shares of common stock subject to options and restricted stock units held by that person that are currently exercisable or will become exercisable or vested, as applicable, within 60 days of March 25, 2019, or May 24, 2019. We did not deem these shares outstanding, however, for the purpose of computing the percentage ownership of any other person. Beneficial ownership representing less than one percent is denoted with an asterisk (“*”).

For a description of the stock ownership guidelines applicable to our non-employee directors, please see the section captioned “Corporate Governance and Board of Directors.”

The information provided in the table is based on our records, information filed with the SEC, and information provided to us, except where otherwise noted.
